# LASCH BULB FARM

NEW ALBANY, INDIANA

Post Office Box 26

Phone 4-1487

All stock grown from bulblets and planting stock. Bulbs are of choice quality, bright and high-crowned; guaranteed free of disease and true to name. Dusted with 5% DDT and Spergon. All bulblets hand cleaned and washed. Stock is State inspected both in field and storage.

FALL 1951 — SPRING 1952

## GOLD

Gold is the wonderful, rich yellow so highly regarded by many of the leading growers. Beautiful beyond words, it is tall, straight, healthy, and has perfect attachment and placement. In vigor, health, plant growth and propagation, it is similar to Orange Gold, one of its parents.

The substance of Gold is so firm that I have cut spikes in 95 degree heat of the afternoon sun that were crisp and upright when other varieties were limp and wilted. It holds its gorgeous color and size to the very tip. Gold is a very strong grower from bulblets and makes beautiful bulbs. We get practically no 5s and 6s.

If you sell cutflowers don't fail to get started at once in this fine, deep yellow. A start now will enable you to build up a good stock in a few seasons when the demand will be tremendous. It will certainly put you in good standing with your florist or wholesale house. (Gold is pictured and fully described in our 1952 catalogue.)

Grower's Units — 5 large, 5 medium, 5 small, 100 bulblets for. . . . . \$ 25.00  
— 10 large, 10 medium, 10 small, 200 bulblets for. . . . . 46.00  
— 15 large, 20 medium, 20 small, 500 bulblets for. . . . . 100.00  
— bulblets \$130.00 per 1,000; \$400.00 per quart.

## TYRONE

Introduced without a great deal of ballyhoo, I think Tyrone is a top notch lavender. I have had my eye on this for the past 4 years and jumped at the chance to buy part of the stock last year. Tyrone differs from most lavenders in that it is a strong, vigorous grower, has a stretchy flowerhead of 20 to 24 buds, has plenty of stem beneath the flowerhead, and produces healthy bulbs. In addition, it opens perfectly when cut tight, is an unusually good keeper, and a good propagator.

Tyrone produces tall, No. 1 spikes with a uniformity seldom seen in lavenders. It is highly recommended. (Pictured and more fully described in our 1952 catalogue.)

Grower's Units — 15 bulbs, any size, and 100 selected bulblets for. . . . . \$ 50.00  
— 30 bulbs, any size, and 250 selected bulblets for. . . . . \$100.00

## SWEET SIXTEEN

Seldom do we find such superlative commercial qualities, together with a true, pure pink color, as are evident in Sweet Sixteen. This is definitely one of the top 4 or 5 commercial pinks. Like Beauty's Blush, of which it is a sport, Sweet Sixteen throws perfect spikes right down the row. It is a regular performer and an A-1 cutter and is made to order for florist use. (Fully described in our 1952 catalogue.)

Grower's Units — 25 large and 500 bulblets for. . . . . \$30.00  
— 50 large and 1 pt. bulblets for. . . . . \$75.00  
— bulblets \$40.00 per 1,000; \$120.00 per quart.

**LIST No. 1--** Not less than 250 bulbs of a size and variety sold at the 1,000 rate. 100 of a size from List No. 1 at 10% extra.
